About EMVA

About EMVA

EMVA – Körperschaft für wechselseitige Unterstützung - ETS

is a

- non Profit
- health fund (Sanitätsfond / fondo sanitario)
- founded in the late 70's from self-employed for self-employed
- our Members are voluntarily registered in the entity
- and guarantee themselves the mutual coverage

About EMVA

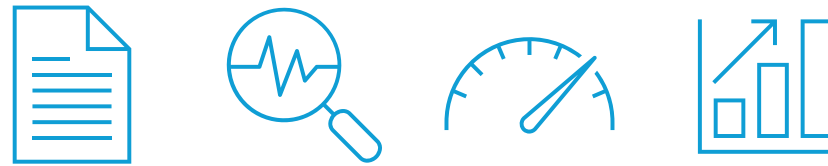

Our Target is to maximize refunds per fond

For that we need to quickly process and analyze a lot of data with a minimum of expense.

With the Knowhow from **AboutBits** we decided to
create a whole new ERP with members portal and
on top the open-source business intelligence METABASE.

About Metabase

About Metabase

Metabase is a Open Source Self-Service Business Intelligence

Visual Query Builder

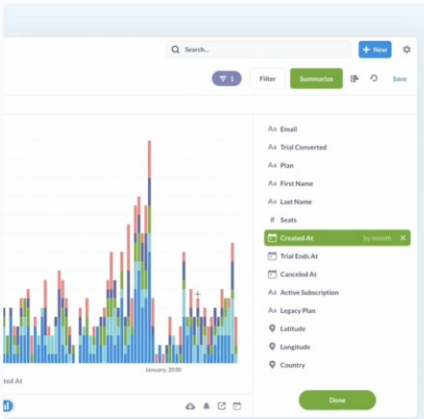

Free your data from the confines of SQL, letting everyone query in a UI humans **actually love**. Need joins, drill-downs and calculated columns? We've got you.

Dashboards

Easily create and share interactive dashboards, from TB-scale analytical workloads to day-to-day operational workflows, with 15+ visualization types.

Models

Craft metadata-rich, semantic models which let people query on their own, keeping things consistent and avoiding repetition. With a single tab open and no CLI needed.
