A Deep Dive into Smart Dato's Laravel Architecture

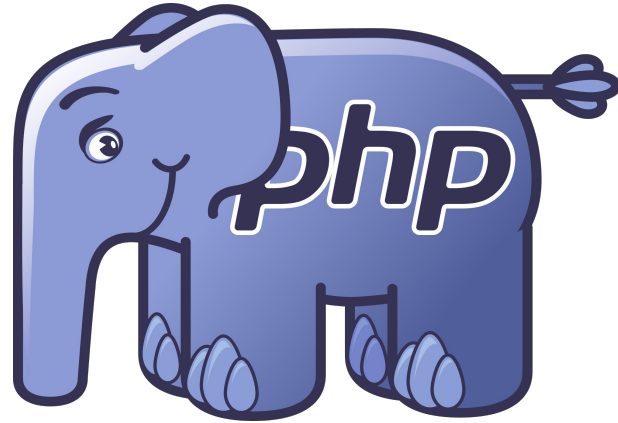

Michael Tscholl

Don't fight the framework

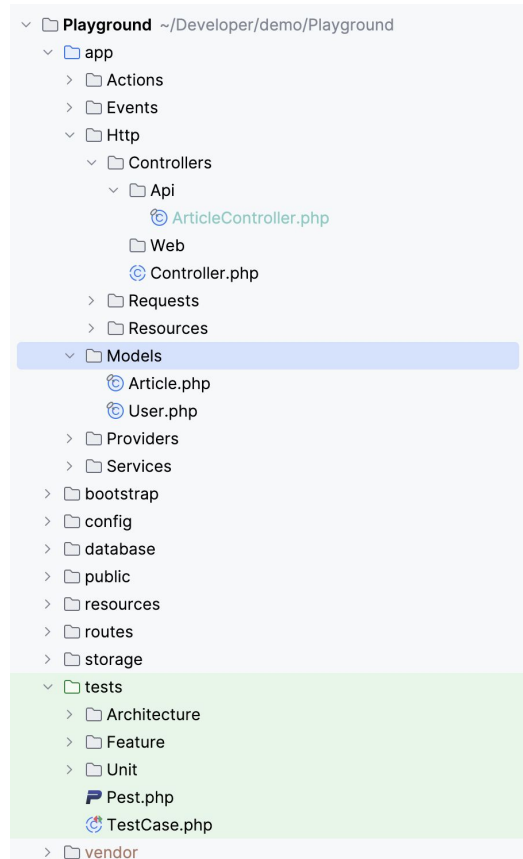

Laravel

Don't fight PHP

Project Organization & Coding Standards

NamingConventionLaravel.php

```
// 🌈 **Laravel Naming Convention Guidelines**

// 📖 Dive into the recommended naming conventions for various elements in Laravel codebases.
// Following these conventions can enhance code readability and maintainability. Let's make your code shine! ✨🔥
```

Element	Convention	Good	Bad
Controller	Singular	PostController	PostsController
Route	Plural	posts/1	post/1
Named route	Snake_case with dot	users.show_active	users.show-active, show-active-users
Model	Singular	Post	Posts
hasOne or belongsTo relationship	Singular	comment	comments
All other relationships	Plural	comments	comment
Table	Plural	comments	comment
Pivot table	Singular model names in alphabetical order	post_user	user_post
Table column	Snake_case without model name	author_name	AuthorName; author_name
Model property	Snake_case	\$comment->created_at	\$comment->createdAt
Foreign key	Singular model name with _id suffix	post_id	PostId, id_post
Primary key	-	id	custom_id
Migration	-	20211231120000_create_comments_table	20211231120000_comments_table
Method	camelCase	getComments	get_comments
Method in resource controller	Table	store	saveComment
Method in test class	camelCase	testCreateComment	test_create_comment
Variable	camelCase	\$commentsWithAuthor	\$comments_with_author
Collection	Descriptive, plural	\$activeUsers = User::active()->get()	\$active, \$data
Object	Descriptive, singular	\$activeUser = User::active()->first()	\$users, \$obj
Config and language files	Snake_case	post_comments_enabled	postCommentsEnabled; post_comments_enabled
View	Snake_case	show_comment.blade.php	showComment.blade.php, show-comment.blade.php
Config	Snake_case	post_comments.php	postComments.php, post_comments.php
Contract (Interface)	Adjective or noun	Authenticatable	AuthenticationInterface, IAuthentication
Trait	Adjective	Notifiable	NotificationTrait

Laravel Pint

```
nunomaduro@nunomaduro:~/my-laravel-application  
→ pint  
  
.....✓.....✓.....  
  
----- PSR 12  
FIXED ..... 53 files, 2 style issues fixed  
✓ app/Models/User.php ..... single_trait_insert_per_statement, braces  
✓ app/Providers/AppServiceProvider.php ..... new_with_braces
```

larastan

/code analysis/

```
nunomaduro@nunomaduro: ~/laravel
→ ./vendor/bin/phpstan analyse
Note: Using configuration file /Users/nunomaduro/laravel/phpstan.neon.
